# Gourmet Olive Products

---

## About Us

*Established in 2008, Rivendale Estate is a small boutique olive grower located in the beautiful Upper River area of Kangaroo Valley, where we are consistently recognised for producing extremely high quality olives and olive products.*

*Growing olives at Rivendale Estate is more than just a labour of love (it's more like an obsession) fuelled by a commitment that "quality begins right here in the grove". Because as any good chef knows, the use of high quality ingredients is a basic prerequisite for creating a truly great meal.....and it all begins right here.*

RIVENDALE ESTATE OLIVES

---

## Marinated Table Olives

Our 'extra quality' Kalamata olives have a quintessentially intense, fruity and complex flavour.

Handpicked at peak ripeness, these olives are cured using totally natural methods, and prepared with traditional recipes and only the very best ingredients.

Our range of marinated table olives really represent the 'pick of the crop' here at Rivendale Olives.

---

## Extra Virgin Oils

Our extra virgin olive oils are some of the finest cold pressed, high quality oils available today.

Carefully handcrafted using only single varietal, estate grown olives in the traditional Tuscan style. All of our oils are unfiltered with no biochemical fancywork.

Our range of extra virgin olive oils are available in limited release single varietal and genuine Agramato oils.

---

## Gourmet Olive Tapenades

Our handcrafted tapenades are made using locally grown 'select quality' Kalamata olives.

Prepared using the same natural methods, our tapenades skillfully combine modern variations with traditional themes to deliver a mouthwatering experience.

Our range of gourmet olive tapenades offer the perfect integration of flavours and textures.

---

## Natural Castile Soaps

Our castile soaps are completely natural and gentle, prepared with a minimum 72% olive oil base.

These handmade soaps do not contain any animal fats, harsh chemicals, or dyes. Which means they are great for your skin and are particularly eco-friendly.

Our range of natural castile soaps also include a selection of mild essences to enhance your cleansing experience.
